

Abstract

The present invention is directed to a mobile or stationary traffic monitoring
5 system for detecting violations of speed limits or other traffic laws by vehicle operators
and issuing citations to an operator and/or vehicle owner suspected of a violation using a
digital camera to capture images of the operator and/or the vehicle, transmitting the
captured images and other relevant data to an analysis center where the images and data
are analyzed to determine whether to issue a citation and, if so, to issue the citation or
10 take other appropriate law enforcement measures. The invention is also directed to a
method for capturing images of a vehicle and /or vehicle operator suspected of a traffic
violation, determining the time and geographic location of the suspected violation,
transmitting the images and other data to an analysis center, issuing citations to violators
and deriving revenue therefrom.
